

Linux – Solved MCQs (First 50 Questions)

1. What is the primary function of the Linux kernel?
A) Provide a graphical interface
B) Manage hardware resources and system operations ✓
C) Manage user authentication and access
D) Provide networking functionality
2. Which of the following is NOT part of the Linux kernel?
A) Process management
B) Memory management
C) File system management
D) User applications ✓
3. What is the role of the shell in Linux?
A) Interface between the user and the kernel ✓
B) Manages hardware components
C) Handles network connections
D) Manages file systems
4. Who is the creator of the Linux kernel?
A) Bill Gates
B) Richard Stallman
C) Linus Torvalds ✓
D) Steve Jobs
5. When was the first version of Linux released?
A) 1980
B) 1991 ✓
C) 1993
D) 2000
6. Which operating system is Linux based on?
A) UNIX ✓
B) MS-DOS
C) Windows NT
D) MacOS
7. What is the primary reason for Linux's success in servers?
A) It's free and open-source. ✓
B) It has better gaming support.
C) It's user-friendly for beginners.
D) It has better hardware compatibility.
8. Which of the following is NOT a feature of Linux?
A) Multitasking
B) Multi-user
C) Security
D) Single-core processing ✓
9. Which of the following is a Linux distribution?

A) Ubuntu ✓

B) Windows 10

C) macOS

D) Solaris

10. Which command displays current working directory?

A) pwd ✓

B) ls

C) cd

D) dir

11. chmod 755 filename does what?

A) Change file owner to 755

B) Set file permissions for the owner, group, and others ✓

C) Create a file named '755'

D) Set read, write, and execute permissions for all users

12. Which command lists all files including hidden?

A) ls -a ✓

B) ls -l

C) ls -r

D) ls -h

13. Command to check disk usage of a directory?

A) du ✓

B) df

C) ls

D) fdisk

14. tar -xzvf file.tar.gz does what?

A) Compress a file

B) Extract contents of .tar.gz ✓

C) Convert tar to gz

D) Create a tar file

15. Command to display manual page?

A) man ✓

B) help

C) info

D) doc

16. Command to display last few lines of file?

A) head

B) tail ✓

C) cat

D) more

17. chmod command does what?

A) Change file ownership

B) Change file permissions ✓

C) Change file type

D) Change file location

18. NOT a valid redirection operator?

- A) >>
- B) <
- C) <<
- D) ~> ✓

19. Command to view file contents?

- A) cp
- B) ls
- C) cat ✓
- D) mv

20. Purpose of until loop?

- A) Loop through values
- B) Loop while condition is false ✓
- C) Exit script
- D) Read input from file

21. Difference between while and until?

- A) while loops while true, until loops until true ✓
- B) while loops until true, until loops while true
- C) while loops are faster
- D) while loops are slower

22. How to exit a while loop?

- A) Using break ✓
- B) Using exit
- C) Using return
- D) Using done

23. Can you nest loops in Unix shell scripting?

- A) Yes ✓
- B) No
- C) Only for loops
- D) Only while loops

24. Purpose of ;; in a case statement?

- A) Separate commands
- B) Separate patterns
- C) End of case ✓
- D) Start of case

25. Purpose of && operator?

- A) Execute regardless
- B) Execute only if previous succeeds ✓
- C) Execute only if previous fails
- D) Pipe output

26. Purpose of || operator?

- A) Execute if success
- B) Execute if fail ✓
- C) Execute regardless

D) Redirect output

27. ? wildcard matches what?

A) Any string

B) Any single character ✓

C) Any number of characters

D) Only alphanumeric

28. Purpose of > operator?

A) Append output

B) Overwrite file ✓

C) Pipe output

D) Read input

29. Purpose of >> operator?

A) Overwrite file

B) Append output ✓

C) Pipe output

D) Read input

30. grep case-insensitive match for hello?

A) grep hello data.txt

B) grep -i hello data.txt ✓

C) grep -c hello data.txt

D) grep -n hello data.txt

31. grep option to count lines?

A) -i

B) -n

C) -c ✓

D) -v

32. grep -c error logfile.txt displays?

A) All lines containing error

B) Number of lines containing error ✓

C) Line numbers

D) All except error

33. grep showing line numbers + case-insensitive?

A) grep unix notes.txt

B) grep -c unix notes.txt

C) grep -i -n unix notes.txt ✓

D) grep -n -c unix notes.txt

34. grep -n 'mat' t1.txt does?

A) Count lines

B) Display matching lines with line numbers ✓

C) Display all except mat

D) Display only case-insensitive matches

35. grep -i -n unix file.txt does?

A) Show only count

B) Show matches with line numbers ignoring case ✓

C) Show only line numbers

D) Show lines not containing unix

36. grep '^The' file.txt does?

A) Lines beginning with 'The' ✓

B) Lines ending with 'The'

C) No lines beginning

D) Count beginning

37. grep 'test\$' file.txt does?

A) Lines beginning with test

B) Lines ending with test ✓

C) No lines beginning

D) Count beginning

38. sed 's/bba/mba/g' t1.txt does?

A) Replace bba with mca globally

B) Replace bba with mba globally ✓

C) Replace first occurrence only

D) Does not replace

39. sed stands for?

A) Stream Editor ✓

B) String Editor

C) Syntax Editor

D) Script Editor

40. Syntax for replacing string using sed?

A) sed 's/old/new/' file ✓

B) sed 'r/old/new/' file

C) sed 'c/old/new/' file

D) sed 'd/old/new/' file

41. Replace all occurrences using sed?

A) sed 's/old/new/' file

B) sed 's/old/new/g' file ✓

C) sed 's/old/new/p' file

D) sed 's/old/new/d' file

42. g flag in sed means?

A) Global replacement ✓

B) Grep pattern

C) Generate file

D) Get input

43. Delete line containing pattern using sed?

A) sed '/pattern/d' file ✓

B) sed '/pattern/p' file

C) sed '/pattern/s' file

D) sed '/pattern/r' file

44. -i option in sed does what?

A) In-place editing ✓

B) Ignore case

C) Input file

D) Invert match

45. Print specific line range using sed?

A) sed -n '1,5p' file ✓

B) sed '1,5d' file

C) sed '1,5s' file

D) sed '1,5r' file

46. -n option in sed does what?

A) Suppress automatic printing ✓

B) Enable newline

C) Specify input file

D) Numeric operations

47. Append text using sed?

A) sed '\$a text' file ✓

B) sed '\$i text' file

C) sed '\$c text' file

D) sed '\$d text' file

48. Command to extract specific column?

A) cut ✓

B) sort

C) uniq

D) wc

49. Purpose of tr command?

A) Translate characters ✓

B) Sort a file

C) Remove duplicates

D) Count lines

50. Purpose of uniq command?

A) Sort a file

B) Remove duplicate lines ✓

C) Count lines

D) Cut a file
